

Premier Energy Utility Search

Premier Energy Consultancy

Premier Energy Surveys

ABOUT US

Premier Energy are specialists in utility infrastructure strategies and reporting. Since 1995, we have delivered market leading utility solutions for professionals in the civil, commercial and residential construction industry.

We provide high quality, intelligent Searching, Consulting and Surveys of utility infrastructure for use in land procurement, planning and construction.

#SEARCHFIRSTDIGLATER

Searching before digging significantly reduces potential risk to health and safety, budgets and unexpected delays.

Our experienced team evaluate, procure and implement utility strategies and present them in easy to understand infrastructure reports and plans to meet your project needs.

OUR VISION

To be the preferred choice Utility Infrastructure Consultant in the UK, committed to making our clients' experience with Utility companies easier, safer and more cost efficient when managing the planning, procuring and installation of utility infrastructure.

WHY USE US?

- Our market leading reporting suite gives you a complete overview of your utility infrastructure requirements from project inception to completion
- You will be allocated one main point of contact to deliver your project needs backed up by a great team that supports you through the process
- Our comprehensive plans reduce your exposure to risk
- We provide technical engineering assistance to design teams to plan utility infrastructure ahead of appointment of providers
- Our expertise in utility infrastructure saves both money and time by taking out the stress of directly engaging with multiple providers
- We provide an independent utility supply chain tending process to ensure compliance with your auditing requirements
