Utility Search
OS MasterMap®

Premier Energy is an Ordnance Survey Licenced Partner and can supply you with OS MasterMap®, the most comprehensive mapping dataset available from the OS.

OVERVIEW

Premier Energy's PALM product uses OS MasterMap® for its base mapping.

Order a PALM using Premier Energy's online mapping system and you can also purchase OS Mastermap® for the area of your project with a single click.

OS Mastermap® is the UK's most detailed and accurate mapping data providing a comprehensive view of Great Britain - from roads to field boundaries, buildings, addresses and more. A vector dataset comprising points, lines, polygons and text, it is delivered as DWG and SHP formats and can be used in CAD or GIS, making it the industry standard dataset across many sectors including engineering, architecture, construction and surveying.

FEATURES

- One click to order when purchasing Premier Energy's PALM product
