

Utility Search

Premier Plus

The Premier Plus is an advanced search detailing existing utilities in and around your enquiry area and providing guidance on the utility constraints and possible costs.

OVERVIEW

We make enquiries to over 40 utility companies to obtain their asset maps. We review each response and add commentary detailing the potential constraints posed by the existing utility plant and the next steps necessary when working in the vicinity. We provide guidance on typical costs and timeframes to deal with the issues presented. The report is provided in pdf format via email or file transfer.

WHY DO I NEED THE PREMIER PLUS REPORT?

Premier Plus meets the search level required for PAS 128* Quality Level D (QL-D) and HSG47 compliance and has all the benefits of the standard Premier report i.e. #SearchFirstDigLater greatly reduces the chance of dangerous and expensive cable strikes or damage to other utility assets. A RAG rating enables the reader to quickly pinpoint utilities of concern.

In addition, the Premier Plus contains guidance that will assist you in decision-making regarding your enquiry area. Maybe you are planning a new housing development, considering alternative routes for new infrastructure works or deciding whether to purchase a plot of land – the Premier Plus will provide you with useful information that can assist your decision-making.
